

DIAMONDS *of* CHOICE

Print this page at 100% then double check the size by measuring the line below, which must measure exactly 3cm to ensure an accurate ring size.

Place an existing ring that fits you correctly on the page and find the circle that fills the **INSIDE** of the ring (you should just see the outline of the circle on the outside of your own ring if the size is correct.)

Make a note of the corresponding letter – that is your ring size.

Please note – this is a guide only, for the most accurate ring sizing please email us at sales@diamondsofchoice.com with your details and we will send you a simple ring sizer in the post.
